Ahead. From Start to Finish

I have been using the lotus Pro High Capacity Unit in our floor scrubber machine in the manufacturing facility and I am amazed at the fact that it leaves the floor dry, no grease and streak free!

I also use the Trigger Spray Unit for cleaning bathrooms and the cafeteria and I feel much better knowing that I am no longer inhaling chemicals. Also it has cut my cleaning time in half!

On a personal note, I have the lotus Home machine and I will never go back to using chemicals! I feel so much better knowing I'm keeping my family safe.
