

Robinson **TRANSPORT**

HARROW 452056 ONTARIO LTD.

Lotus Pro

June 14, 2011

Robinson Transport has been using the Lotus Pro cleaning system for the past few months. We initially bought the machine to try and clean the sliding tarp systems used on our trailers. We have had trouble in the past keeping them clean with various types of chemicals.

Since cleaning the tarp systems once a week, for four (4) weeks, the trailers have truly come back to a new finish. After using the Lotus Pro for a few months now, we have been so pleased with the results that we've purchased a second one.

The Lotus Pro System will yield Robinson Transport a significant amount of savings by reducing our cleaning supply cost. We now use the Lotus Pro to clean our office, cars, trucks and, of course, our tarp systems.

Please feel free to call me if you have any questions.
